ABOUT US

We are independent from political, religious or business interests and maintain independence by completely funding and operating our programs with the practical and monetary contributions of volunteers and interns.

Aldeas de Paz is committed to delivering meaningful ethical volunteer programs by prioritizing community needs and fostering sustainable development. We promote responsible volunteering by providing pre-departure information, ensuring cultural sensitivity, and advocating for ethical and responsible volunteer practices. We prioritize transparency, collaboration, and fair compensation for local staff and partners.

We promote a culture of peace and foster cross-cultural exchange for people of all races and nationalities and we practice voluntary community service where we provide additional opportunities in education, sports, culture, health care and social development. We assist our beneficiaries to develop their potential and improve their own lives.
